EXPERIENCE

Accenture Digital

Omnichannel Technology Consultant

Milan, Italy

06/2018 - now

- Managed client interactions to collect business requirements and translating them into technical solutions
- Led design and implementation of the solution to improve the performance and scalability of the system
- Interfaced with 10+ third-party companies to design and implement systems integration
- Converted the solution to a decoupled approach, designing a server API system and collaborating with touchpoint teams to develop the mobile apps solution and the ReactJS web solution.
- Supported research, monitoring and analysis of big data generated by the machines, via Splunk.

Ticketoo

Co-Founder and CTO

Milan, Italy

10/2017 - 02/2018

Winner's project of the Pavia Startup Weekend 2017, Ticketoo is a marketplace where customers can buy and sell bus and train tickets in a totally safe end to end process.

- Designed and implemented the solution, leading a small group of developers and managing the external suppliers
- Pitched to 10+ investors the technical perspective of the project

Accenture Digital

Java Developer

Milan, Italy

07/2015 - 06/2018

- Cooperated in the development of a custom eCommerce solution for a top tree fast-fashion group
- Led a group up to 10 developers to deliver several different features of the project
- Worked on backend integrations developed in JAVA EE between the eCommerce and third-party systems like payment system providers.

Xenia srl
